COMMWORLD of Kansas City
“Preferred Telecommunications Equipment Provider”

COMMWORLD of Kansas City, a leading business telecommunications equipment provider since 1981, has been selected by the Kansas City Metropolitan Bar Association (KCMBA) to join their Affinity Partnership Program. By participating in this exclusive program, COMMWORLD becomes the association’s preferred telecommunications provider for its member law firms.

“COMMWORLD of Kansas City installed our latest telecommunications system and we were so impressed with their service and professionalism that we suggested their proposal as an Affinity Partner,” said Rae Jean McCall, executive director of the KCMBA. “Our staff quickly realized that the entire legal community would greatly benefit from their services and technical expertise. After a rigorous proposal process we officially accepted COMMWORLD of Kansas City into the program.”

COMMWORLD will provide business telephone and voice processing systems to KCMBA members. Additionally, COMMWORLD has a wide selection of technology solutions to satisfy the needs of law firms and other businesses. Some of these items include local/long distance service, Internet connectivity, web conferencing, teleconferencing, call accounting, and voice over Internet (VoIP).

The company receives added credibility from servicing such a prominent association. “Throughout our history since 1981, we have had the great pleasure of servicing all types of businesses – including the legal community,” stated Bob Bennett, president of COMMWORLD. “We’re excited about our relationship with KCMBA and the opportunity to help businesses increase their profitability and give them a competitive advantage by using our telecommunications solutions. Our ‘one point of contact’ concept means businesses can come to us for full service, eliminating the frustration of multiple contacts. Our wide choice of products including Toshiba, ESI, Samsung and Comdial means you get the best of the best with COMMWORLD.”
