COMMWORLD of Kansas City to Speak at National Convention Showcasing U.S. and Canada's Top Telecommunications Providers

*Bob Bennett, President of
COMMWORLD of Kansas City, to
Offer His Industry Expertise During
Technology Assurance Group's
2006 National Convention*

KANSAS CITY, MO — December 15, 2005 — **COMMWORLD** of Kansas City, an industry leader in telecommunications, announced today that the company will speak at a national convention showcasing both U.S. and Canada's top telecommunications providers. Technology Assurance Group (TAG), an association of independently owned telecommunication companies, of which **COMMWORLD** is a premier member, invited Bob Bennett, the company's President, to share his industry expertise during a series of roundtable discussions. These discussions will cover a variety of hot topics impacting telecommunications and the global business environment. TAG's 2006 National Convention will be held March 8th – 10th in San Diego, California.

Hundreds of telecom professionals representing voice and data providers, major industry manufacturers, and trade journals will listen to Mr. Bennett offer his valuable insight on issues facing communications technology, business processes, customer satisfaction, and corporate training. The roundtable discussions are the most popular activity of the convention because it's an opportunity for open exchange of ideas and information.

"Mr. Bennett's knowledge, experience, and accomplishments in our field is quite impressive," stated Dale Johnson, CEO of TAG. "It will be an honor to have someone of his caliber address our Member companies at our largest event of the year. Everyone in attendance will be treated to a valuable learning experience."

"It is a great privilege to share our challenges and experiences with TAG members across North America," said Bob Bennett. "Participating at TAG's annual event enables us to interact and learn better business practices from other leading companies in our industry. We implement new ideas and approaches that not only improve **COMMWORLD**, but provide cost-effective products and services to our customers. The TAG Convention presents us with a tremendous opportunity to evaluate new technology solutions that give the companies we serve a competitive advantage, improved profitability, and a higher level of productivity."

ABOUT COMMWORLD OF KANSAS CITY

COMMWORLD of Kansas City has been providing superior business telephone system products and services to the Kansas City area since 1981. **COMMWORLD** specializes in the most reliable, high quality telecommunications products from the leaders in technology -- Toshiba, ESI, Samsung and Comdial to name a few. Bennett stated, "Customers no longer

need to be frustrated with multiple contacts. Our 'one point of contact' concept means your business can come to **COMMWORLD** for full service IP connectivity, converged systems, local/long distance service, Web site provision, audio/video conference service/equipment, voice processing and more. With **COMMWORLD** you get the best of the best."

COMMWORLD of Kansas City is located at 6200 Main Street in Grandview, MO. For more information, call (816) 763-1100 or visit www.commworld-kc.com.
